

**Illinois Route 53 (FAP 870) at Illinois Route 56 ■ D-91-612-11  
DuPage County, Illinois**

*Civil Engineering – Roadway Design Subconsultant*

Millennia Professional Services was retained by Bollinger, Lach and Associates, in concert with the Illinois Department of Transportation, to provide Phase II design services on this various-  
various contract.

The scope of work consists of the reconstruction of Illinois Route 53 and Illinois Route 56 intersection. Roadway approach sections along Illinois Route 53 and Illinois Route 56 will also be reconstructed due the proposed channelization at the intersection. The proposed intersection will have dual left turns and a right turn lane at each leg. Illinois Route 53 will have two lanes in each direction with raised median. Illinois Route 56 will have three lanes in each direction with raised median. There will be a bike path on east side of IL Route 53 and north side of IL Route 56. The scope also includes new traffic signals, lighting and drainage improvements.

Millennia has provided Phase II engineering services, which included the preparation of contract plans, specifications and estimates for Letting. Millennia also developed interconnect signal plans, permanent traffic signal plans, temporary traffic signal plans, pavement elevation plans, pavement jointing plans, and noise wall plans.
