

**IDOT Construction Inspection ■ US 34 in Yorkville
Kendall County, Illinois**

Prime Consultant

Millennia is providing Phase III engineering services for the \$33 million improvement of US 34 between Yorkville and Oswego. The project consists of the construction of 3.65 miles of four-lane jointed PCC pavement with a center concrete median from IL 47 to Orchard Road, including traffic signals and a shared use pedestrian path. The project also includes over 30,000 feet of storm sewer pipe that utilizes detention ponds, in-pipe storage, and infiltration trenches to reduce the amount of water runoff from the project. Phase III engineering services are being provided for the inspection, supervision, materials testing (including, but not limited to, PCC, HMA and embankment testing), materials certification, and all documentation for this project.
