

**IDOT Construction Inspection ■ US 34 Near Biggsville  
Henderson County, Illinois**

*Prime Consultant*

Millennia provided Phase III engineering services for the \$50 million improvement of US 34 near Biggsville. The contract consisted of the construction of new lanes of roadway from west of TR 111 to TR 190, 1.5 miles east of Biggsville, Illinois. The project also included new structures over South Henderson Creek and a new structure carrying IL 94 over US 34. Phase III engineering services were provided for the inspection, supervision, materials testing (including, but not limited to, PCC, HMA and embankment testing), materials certification, and all documentation for this project. Millennia was required to perform on-site inspection, verification of contractor staking, maintain documentation, and any other duties that were required to complete this project on a timely basis and in accordance with the State Specifications and Guidelines. Millennia's work included, but was not limited to,

providing staff, vehicles, and appropriate test equipment necessary to complete this project. Millennia furnished a Liaison Engineer and an adequate staff to perform the duties required to fulfill the engineering requirements in accordance with the departmental policies for this project.
