

**Southwestern Illinois College ■ Campus Improvements
Belleville, Illinois**

Prime Civil Engineering and Surveying Firm

Millennia Professional Services was retained by Southwestern Illinois College to design and prepare improvements plans for the beautification of the Quad, Multimodal Transportation and the Liberal Arts Center on the Belleville Campus.

The Liberal Arts Center project included bike connectivity into the overall campus plan, and calculations for submittal to U.S. Green Building Council, as necessary for LEED Certification. The design improvements for the Multimodal Building included new curved sidewalk with lighted, landscaped areas. Stone benches accent the curves and the ornamental trees provide shade along the pathway.

Client:

Southwestern Illinois College
2500 Carlyle Avenue
Belleville, IL 62221
Phone: 618.235.2700

Engineering Services Provided:

- Improvement plans and specifications preparation
- LEED for New Construction – Gold Certification
